## WISH I HAD NOT SAID THAT

JJ Cale

You don't come here too often  
You make my day when you come around  
You know I love you something awful  
You're a diamond I have found

Wish I had not said that, baby  
If I could only close you out of my mind

The sunset passes oh so sweetly  
Gives a man just time to think  
Freeze the image of your body  
Fantasy is just a blink

Wish I had not said that, baby  
If I could only close you out of my mind

It don't matter what you're into  
If I could taste you once again  
Feel the pain and the pleasure  
We could make it to the end

Wish I had not said that, baby  
If I could only close you out of my mind

Wish I had not said that, baby  
If I could only close you out of my mind

## STOP, DROP AND ROLL

Adam Douglas

When your house is burning down  
You pull that fire alarm  
You stop, drop and roll to your heart's content  
And reward the fireman with your charm  
You can really pour on the charm

When your stove-top pot is boiling over  
You took your eye off of the ball  
You ain't been much of a self-promoter  
Yeah, you always knew just who to call  
You pick the right time to call

I'm waiting for that phone to ring  
For you to holler if you need anything  
Everyday, I'm on my knees, for you

When your car won't start, the bills ain't been paid  
And there's rain all over your parade  
You're not inclined to lift your little finger  
Yeah you really got it made  
You're thinking you've got it made

I'm waiting for that phone to ring  
For you to holler if you need anything  
Everyday, I'm on my knees

I feel blessed to know you  
I've thanked all my lucky stars  
But nothing I do gets me close enough  
So I've cherished you from afar  
Yeah, I've loved you from afar

I'm waiting for that phone to ring  
For you to holler if you need anything  
Everyday, I'm on my knees  
Just for you

## PLENTY OF TIME, NONE TO WASTE

Adam Douglas

Well, my life, it ain't over.  
There's still days in front of me.  
Though those days are getting colder  
There's still time to make believe

And everybody's got their minds made  
Up before they've had a taste  
And I'm beginning to determine  
That I've got no more time to waste

Well my knees, they are shaking  
It's just my nerves saying hi  
While my body may be aching  
I'm still glad to be alive

And everybody's got their minds made  
Up before they've had a taste  
And I'm beginning to determine  
That I've got no more time to waste

And everybody's got their minds made  
Up before they've had a taste  
And I'm beginning to determine  
That I've got no more time to waste

Ooo-ooo-ooo

## TRUE BLUE

Music: Adam Douglas  
Lyrics: Adam Douglas, Ryan Taylor

Just two kids playing in the yard once  
Promised not to become grownups  
Turned around and found out that we did  
Yeah, way back, never gave it thought then  
Couldn't even have imagined  
I'd fall in love with my best friend  
Guess Time has a way of having its way and now

Strange but, I'm a bit surprised how  
You stuck right by my side now  
You could have left at any time  
Yeah, we're true blue,  
through thick and thin and then some  
How did I miss it when we were young?  
And yet it never crossed my mind  
Guess love has a way of finding its way, and now

I wanna be the one for you  
I wanna be the one for you now baby  
I wanna be the one you love  
Be the one you love  
Be the one you love  
Baby, let me be it

I wanna be the one for you  
I wanna be the one for you now baby  
I wanna be the one you love  
Be the one you love  
Be the one you love  
Baby, let me be it

Guess time as a way of having its way  
And love has a way of finding its way, and now

Yeah  
I wanna be the one you love  
Be the one you love  
Be the one you love  
Baby, let me be it

Oooh

## DEJA RENDEZVOUS

Music: Adam Douglas  
Lyrics: Jeff Wasserman

What did I do to deserve you?  
You asked me no questions, and still I told you lies  
I was 20/20 blind, and how did I ever find a woman so true  
Well, I was lost, till I found my country was you

What if I had never, never fallen  
So far from the fields of my brawlin' youth?  
Who would I be if we didn't meet that deja rendezvous?  
I was so lost, then I found my country was you

Our love flows both ways, we've been blessed  
We opened our arms to our scars and our gifts  
I'd do it again, and then say Amen a thousand times I do  
Well, I was so lost, til i found my country was you  
Then I found my country was you  
Yes I found God's country was you

## HE'LL BE ALRIGHT

Adam Douglas

He wasn't much of a drummer, no  
He kept his own time  
While others harvested early  
He kept his fruit on the vine  
A bigger brother was cumbersome  
But thankfully didn't stay  
And sometimes almost drowning  
It seemed like the only way  
But he'll be alright  
I'm sure that he'll be alright  
Not all the great minds think alike  
But he'll be alright  
I know that he'll be alright  
He's only dancing for the moon in the daylight  
A new address and another dialect  
He never claimed to be perfect, and that's why.  
He'll be alright  
I'm sure that he'll be alright  
Not all the great minds think alike  
But he'll be alright  
I know that he'll be alright  
He's only dancing for the moon in the daylight  
And he'll be alright  
I know that he'll be alright  
Not one to follow the money, no  
He has his own concerns  
The bills and rent pay themselves you know  
Will he ever learn?  
Seldom more than careless love  
Would make its presence known  
Far between and few were friends  
He bears the burden alone  
But he'll be alright  
I'm sure that he'll be alright  
Not all the great minds think alike  
But he'll be alright  
I know that he'll be alright  
He's only dancing for the moon in the daylight  
And he'll be alright  
I know that he'll be alright  
He's only dancing for the moon in the daylight  
And he'll be alright  
I know that he'll be alright  
He's only dancing for the moon in the daylight

## I NEED A CIGARETTE

Adam Douglas

Surely I can't be the only one  
Who's wound up tight like a loaded gun  
My hands are tied down tight,  
and my heart gives twice the beat  
I've lost my color. I'm white as a sheet

I need a cigarette, my troubles up in smoke  
I need punchline of a dirty joke  
I need a new love to leave my heartache behind  
I need to find a way to escape all the time  
I need a big win to save my career  
I need an overhaul to get my ass in gear  
I need some oxygen to swim through it all  
I'm feeling trapped inside these four walls

There's people scared to outside their homes  
Leaving more than some to sit there all alone  
The powers that be don't give a damn  
bout you and me  
They're only looking for honey,  
and forgetting the honeybee

I need a cigarette, my troubles up in smoke  
I need punchline of a dirty joke  
I need a new love to leave my heartache behind  
I need to find a way to escape all the time  
I need a big win to save my career  
I need an overhaul to get my ass in gear  
I need some oxygen to swim through it all  
I'm feeling trapped inside these four walls

Seemingly, no end in sight  
Losing contact with the daylight  
It's about all I can bear,  
yeah there's darkness everywhere  
Your high-noon is now my midnight

I need a cigarette, my troubles up in smoke  
I need punchline of a dirty joke  
I need a new love to leave my heartache behind  
I need to find a way to escape all the time  
I need a big win to save my career  
I need an overhaul to get my ass in gear  
I need some oxygen to swim through it all  
I'm feeling trapped inside these four walls

I need a cigarette  
I need punchline  
I need a new love  
I need to find a way to escape all the time

## WE'RE ALL THE WAY

Don Williams

There's no cause to think that I won't stay  
Haven't I been with you all the way?  
There's no time like now to make amends  
After all, we're more than friends

This could be the time for you and me  
We could go wherever we should be  
So don't put words between us we shouldn't say  
Don't be acting halfway when you know we're all the way

There are times when I don't see the light  
I don't know if what I do is right  
When I'm wrong, it's never meant for you  
So don't confuse my love with what I do

This could be the time for you and me  
We could go wherever we should be  
So don't put words between us we shouldn't say  
Don't be acting halfway when you know we're all the way

This could be the time for you and me  
We could go wherever we should be  
So don't put words between us we shouldn't say  
Don't be acting halfway when you know we're all the way

## MAYBE SOMEDAY

Adam Douglas

Maybe someday it'll all be fine  
Maybe someday it'll all be fine  
Maybe someday it'll all be fine  
All right

There's rockets flying through the Middle East  
Bezos full from another feast  
The gauge is reading more and more degrees  
There's private planes to outer space,  
And a mask on everyone's face  
The policeman is making it hard to breathe

Tell me son, tell me how to repair the damage done  
To you and me and everyone  
Hear my plea.  
Times like these are filled with desperate needs  
We're all on the edge of our seats

But maybe someday it'll all be fine  
Maybe someday it'll all be fine  
Maybe someday it'll all be fine

There's high-rise buildings crashing down  
Gotta recount the votes for another clown  
And you and me live in our own realities  
You might pray to your God above  
While I'll put all of my faith in love  
And with a little luck, I'll outlive my enemies

Tell me son, tell me how to repair the damage done  
To you and me and everyone  
Hear my plea.  
Times like these are filled with desperate needs  
It's like pulling teeth ya'll!

Maybe someday it'll all be fine  
Maybe someday it'll all be fine  
Maybe someday it'll all be fine

Tell me son, tell me how to repair the damage done  
To you and me and everyone  
Hear my plea.  
Times like these are filled with desperate needs  
It's all giving me the creeps!

Maybe someday it'll all be fine  
Maybe someday it'll all be fine  
Maybe someday it'll all be fine

## CLOSER TO YOU

Music: Bendik Brænne  
Lyrics: Adam Douglas, Bendik Brænne

Someday soon, I'll be far away  
And I'll walk every trail till I find you  
If I'm a changed man, please understand  
That I harvest the hand I was dealt this time  
I try to break up the darkness and the cold  
There's a glimmer of hope in your kindred soul

Now I wanna come closer (closer)  
I wanna hear you say  
Let me come closer (closer)  
To you each day  
When I'm lost in doubt, and I'm stuck without,  
Let me be closer to you

There's so many things I would like to say  
But I'm stuck here in my own way, for better or for worse  
I'm taking aim but I'm out of range  
I'm too far to fan the flames. I'm stuck here in reverse.  
I'm here climbing through all the dust and the fog  
I'm here risking it all, and hope you choose the underdog

Now I wanna come closer (closer)  
I wanna hear you say  
Let me come closer (closer)  
To you each day  
When I'm lost in doubt, and I'm stuck without,  
Let me be closer to you

Well, i wanna be closer to you!

## *Oh so thankful...*

As per usual, these types of musical endeavors are made possible by efforts great and small from a number of wonderful humans. To put it mildly, I am forever grateful for the web of support around me and my projects. An immeasurable thanks to my nearest and dearest - Kristin and Alvin; for the unwavering support and daily motivation.

A big thanks to those that keep my boat afloat: Pernille, Sunniva, and Helene from Heartbeat Management, Cathrine and Dionisia from Grappa Musikkforlag, and Jan Roger and Fanny from United Stage Norway.

Additional thank yous to Jon, Viljar, Doug, Jennelle, Dag, Reidun, and Ruben.

All of our efforts combined are meaningless without the seemingly bottomless support from our fans. Thank you all!
